Annie Schulte
Senior Manager
New York

What were you hoping to gain from joining the mentoring program?

I've spent my career looking up to so many of the strong, successful women at Michael Page, and in business in general. I was hoping to learn the inside scoop for how they found their success and grew their careers.

How would you describe your experience of the mentoring programme so far?

I'm very lucky to have been paired with someone whom I really respect and admire. I've enjoyed having candid conversations about challenges, wins and losses with someone who has been through it all before and can offer practical advice.

What would you say to anyone who might be considering joining the mentoring programme?

What are you waiting for?! We are the next level of senior leadership at PageGroup and this has been a great resource to not only motivate me to achieve my goals, but give me the applicable tools to get there.

Manager
Los Angeles

What were you hoping to gain from joining the mentoring program?

I was looking for an opportunity to collaborate, learn from, and grow with another leader in the business that isn't from my discipline or office. I firmly believe in the power of teamwork. To me, no matter what office you are from or discipline you are a part of at Page, you are my teammate and I value your advice, feedback and mentorship.

How would you describe your experience of the mentoring programme so far?

I have really looked up to my mentor as a female leader in our business. While I have only been her mentee for a short time, she has absolutely proven to be more than just a mentor and advisor to me, but a friend. I know that if I ever need advice or guidance, she has my back. She's an unbiased opinion that really gets me, gets my goals and has seen first-hand the levels of success I want to achieve.

What would you say to anyone who might be considering joining the mentoring program?

My advice would be: What do you have to lose? This is an amazing opportunity to network with other women that have the same goals and mindset as you. Part of professional development is putting yourself out there, learning from others and working towards a common goal of being the best leader you can be! I know that is program is one of many excellent tools we have here at PageGroup to help women GROW.
